Dear Mr. Dorman,

I am writing to request the hearing date for Case No. 203-00399 Lane/Parker Vs. Garrard Co. Water Association be rescheduled due to recent injury. On March 21, 2004 I fell at home and broke my left foot. I have been to the Emergency Room and my physician for this accident. The swelling was so severe the X-Rays taken were unable to show the actual break in my foot. I had the X-Rays taken again on March 29, 2004 after the swelling had went away and it was then they were able to see the break in the top of my foot. I have an appointment with a bone doctor on April 1, 2004 at 4:15 p.m. for him to look at my foot and give treatment as he sees fit. My doctor has me on pain medication that is a Narcotic and restricts my driving or operating machinery. I would appreciate if this hearing could be rescheduled for a later date due to circumstances beyond my control.

Thank You,

*Donald Parker*
